

REMARKS

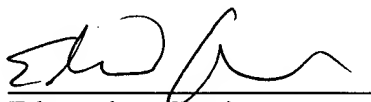

As discussed with the examiner over the phone, we propose to amend claim 8 to clarify the language "controllably mix." In particular, we ask that claim 8 be amended to clarify that the fluid exchanger is constructed to mix "a controllable amount of" thermal reservoir fluid into the recirculation loop (see, e.g., page 17, lines 12-19).

This amendment is being filed after the mailing of the notice of allowance but before payment of the issue fee.

Charge any excess fees or apply any credits to Deposit Account No. 06-1050.

Respectfully submitted,

Date: 4/3/98
